Please confirm this information is correct before continuing:

VMInnovations PO Number: 19480

Vender PO Number: EXX091916-NV

Destination: Nevada Marion

Shipment Size: LTL

Pro/Tracking Number:

Number of Pallets/Skids:

 Unknown

You are able to view the details of your shipment you are scheduling after the system has recognized your reference number. Please verify to ensure that the shipment size and destination address are accurate.

LTL Shipments

It is important that you select the number of pallets/skids you are delivering. If you do not select the correct amount, your shipment could easily be refused.

Containers

This system is set up to prevent carriers from delivering a shipment that will accrue non-authorized charges like storage or demurrage. If you do not have capacity to deliver on or before the LFD and do not plan on charging VM for extra freight expenses, simply extend the LFD so you can select an appointment. If charges will accrue, please contact VM.

LTL Shipments – Scheduling Multiple Shipments to the Same Warehouse at Once

- 1) Enter your first reference number, hit search and allow time for it to populate.
- 2) Once populated, enter the number of pallets for that shipment.
- 3) Confirm pallet count is correct
- 4) Go back to the search bar for your second shipment. Hit search and allow system to populate.
- 5) Repeat as many times as you need.

Frequently Asked Questions

Q: The system is not recognizing my reference numbers. What do I do?

- Ensure that you've attempted to populate the shipment with all available reference numbers including:
 - P.O. #
 - Delivery ID #
 - Tracking # (No dashes or spaces)
 - Pro # (No dashes or spaces)
 - Container #
 - Order #
- Visit our "Request a Reference Number" page and follow the directions on the screen.

Q: My shipment is running late. Who do I contact?

- Visit our "contact" page. Advise of your situation. If we are unable to take in as a work-in, the shipment will need to be rescheduled.

For LTL carriers.....

Q: I have multiple delivers to schedule from several different companies. Do I have to schedule each one by itself?

- No, you can handle all at once. See page 4

Q: I have an existing appointment already and a new shipment has arrived to my terminal. How do I add this new shipment to my current appointment?

- Simply schedule the second shipment during the same date/time. If that option is not available, then that date and time is full. It is imperative that each BOL has its' own appointment with a confirmation code.

Q: The next available appointment is too far out and I need to charge the consignee storage. How do I handle?

Please reach out to us via the contact information on the contact tab. We will try and move something around to bring you in sooner. **If you do not advise of this issue beforehand, VM nor the shipper will authorize payment for storage.**
